

## RUBBER COVERING FOR PRINTING TABLES

### FEATURES

Special rubber to be placed over the printing tables of carousel machines. Accessory indispensable for improving the efficiency of the printing machine. Reduces the pressure of the squeegees, improving the print quality. Protects the aluminium pallets from the heat of the "flash" cures. Reduces the working pressure and therefore fatigue for the operator in manual printing. Made of material with high thermal and chemical resistance. Does not deteriorate on coming in contact with solvents normally used in screen printing. It is applied with normal temporary glue used for fabrics and can therefore be removed easily and reused. Available in 1.5 x 10 m rolls or according to customer specifications.

### TECHNICAL DATA

### VALUES

ROLL WIDTH	1 m
ROLL LENGTH	10 m (LARGER SIZES ON REQUEST)
THICKNESS	3 mm
HARDNESS	60-65 Shore
SPECIFIC WEIGHT	4 kg/m <sup>2</sup>
