

## Honeycomb Aluminium Pallets

The Alluplan pallet series are produced using aerospace quality materials with high mechanical and thermal resistance.

These Printing tables are made of honeycomb lightweight aluminium resistant to solvents and heat resistant up to 100 °C, without undergoing deformation.

Thanks to the lightness of the Alluplan tables, the inertia on the rotary motion of the machine is reduced, thus improving performance and increasing life of the products.

The pallets are also extremely easy to handle, compared to traditional ones, and make the assembly and disassembly processes easy to achieve with every printing machine.

| TECHNICAL DATA                  | VALUES  |
|---------------------------------|---|
| Dimension                       | On demand   |
| Material                        | Honeycomb Aluminium   |
| Specific Weight                 | 10 kg/m <sup>2</sup>  |
| Frame Material                  | Aluminium / grey PVC / black PVC  |
| Thickness                       | 15 / 22 mm  |
| Max Working Temperature         | 100°C   |
| Printing Machines Compatibility | Large range of fixing attachments for all kind of screen printing and digital machines (MHM, MR, ROQ, SCHENK, TEKIND, HEBBECKER, ANATOL, KORNIT, POLYPRINT, etc.) |

The material of the frame can be either aluminium or Pvc, to fulfill each specific production requirement.

Aluminium (22mm)

Aluminium (15mm)

Grey PVC (15mm)

Black PVC (15mm)

Main Application: Screen Printing and DTG Digital Printing

## Custom Made on Demand

The Printing Table you need:  
choose the shape, size, thickness  
and fittings for your printing machine.

Made according to Customer requirements in  
order to guarantee better adaptability of the  
surfaces to the type of job required.

Large range of fixing attachments for all kinds of  
printing machines, both screen and digital.

Printing Tables for Digital Printing Machines, provided with garment locking frame

Manual Printing Machine Accessory:

The Printing Table "CAPS" is specifically designed to screen print on curved objects like caps or bags. It can be micro adjusted on both the base of the pallet and the frame. Furthermore a spring tensor tighten the product to achieve the highest print quality.

Printing Area: 150x90mm
