Alluplan printing pallets

Printing pallets for umbrellas

FEATURES

Printing tables made of honeycomb lightweight aluminium resistant to solvents.

The Alluplan pallet series are produced using aerospace quality materials with high mechanical and thermal resistance. Large range of fittings for fixing to all kinds of printing machines.

Heat resistant up to 100 °C without undergoing deformation.

ADVANTAGES

Thanks to the lightness of the Alluplan tables, inertia on the rotary motion of the machine is reduced, thus improving performance and life.

The pallets are also extremely easy to handle as compared to traditional ones and make assembly/disassembly on the machine easier.

Made according to customer requirements in order to guarantee better adaptability of the surfaces to the type of job required.

TECHNICAL DATA

VALUES

Dimensions	Made to measure
Thickness	15 mm
Specific weight	10 kg/m²
Operating temperature (max)	100°C
Request an offer	by E-mail or fax
Compatible printing machines (automatic and manual)	MHM, MR, SCHENK, TEKIND, S.ROQUE, PANNON, HEBBECKER, ANATOL, LAMECCANICA, SERIGRAF SERVICE, WEISS, PRINTEXMHM, MR, SCHENK, TEKIND, SROQUE, PANNON, HEBBECKER, ANATOL, LAMECCANICA, SERIGRAF SERVICE, WEISS, PRINTEX
